13 Press the four-way controller (▶), then press the four-way controller (▼) to move the frame to [Date].

14 Press the four-way controller (▶) to select [01] (month), [01] (day) or [2007] (year), then use the four-way controller (▲▼) to set the date to the current day.

15 Press the four-way controller (▶), then press the four-way controller (▼) to move the frame to [Time].

16 Set the time in the same manner as in **14**.

17 Press the OK button.

●Formatting an SD Memory Card

Use this camera to format (initialize) an SD Memory Card that is unused or has been used on another camera or digital devices. Be sure that formatting will delete all the data stored in the SD Memory Card. For how to format an SD Memory Card, refer to the Operating Manual (p. 164).

Aim the camera at the subject, then press the shutter release button. The flash fires automatically depending on the light conditions.

1 Frame the subject using the focus frame on the LCD monitor.
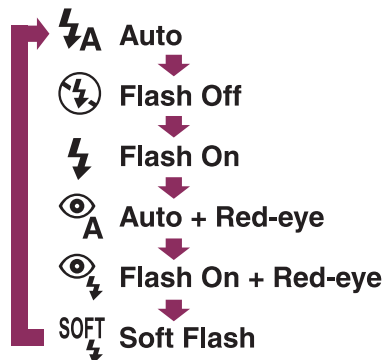

2 Use the Zoom/ ◂◂◂ / ▸ button to change the captured area.

widens the area that is captured by the camera

enlarges the subject
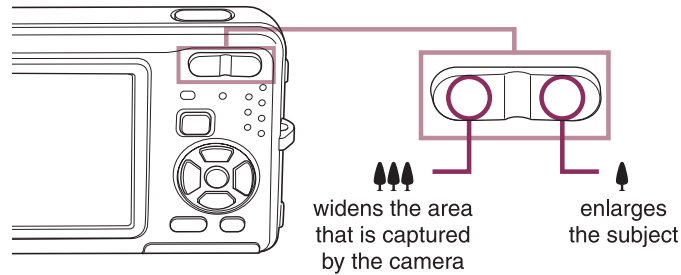

3 Press the shutter release button halfway.

The focus frame on the LCD monitor turns green if the subject is in focus.

4 Press the shutter release button fully.

The picture is taken.

● Selecting the Flash Mode

Each time you press the four-way controller (◂), the flash mode switches between the following modes.

- **⚡A Auto**
- **⚡ Flash Off**
- **⚡ Flash On**
- **⚡A Auto + Red-eye**
- **⚡ Flash On + Red-eye**
- **SOFT Soft Flash**

(Memo)

For details, refer to the Operating Manual (p. 87).

● Selecting the Drive Mode

Each time you press the four-way controller (▴), the drive mode switches between the following modes.

- **◼ Standard (single-frame)**
- **⏱ Self timer (10 sec.)**

(Memo)

● To select ⏱₂s (Self-timer (2 sec.)), select ⏱ (Self-timer (10 sec.)) first, then press the four-way controller (▾ ▸).
● ▣ (Continuous Shooting) and ▣ (HS Cont. Shooting) can be selected in some shooting modes.
● In ᴬᵁᵀᴼ, ▣ (Continuous Shooting) and ▣ (HS Cont. Shooting) cannot be selected.
● For details, refer to the Operating Manual (p. 74, p. 75).

● Selecting the Focus Mode

Each time you press the four-way controller (▸), the focus mode switches between the following modes.

- **AF Standard**
- **🌷 Macro**
- **PF Pan Focus**
- **▲ Infinity**
- **MF Manual Focus**
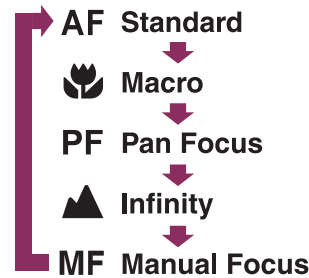

(Memo)

For details, refer to the Operating Manual (p. 85).

You can play back the images taken on the LCD monitor.

● Playing Back Images

1 Press the ▶ button after taking a picture.

The image appears on the LCD monitor.

(Memo)

● To playback the previous or next image, press the four-way controller (◂ ▸).
● Pressing ◱ on the Zoom / ◱ /🔍 button simultaneously displays 9 thumbnail images. If you press ◱ again, while the thumbnail images are being displayed, you can switch to folder display or calendar display mode. For details, refer to the Operating Manual (p. 117).

● Deleting Images

Deleting a Single Image

You can delete a single image currently displayed on the LCD monitor.

1 Playback the image you want to delete.

2 Press the 🗑 button.

The confirmation screen appears.

3 Use the four-way controller (▴▾) to select [Delete].

4 Press the OK button.

Deleting All Images

You can delete all the images at once.

1 Press the 🗑 button twice while the image is played back.
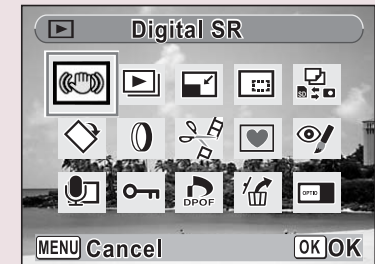

The confirmation screen appears.
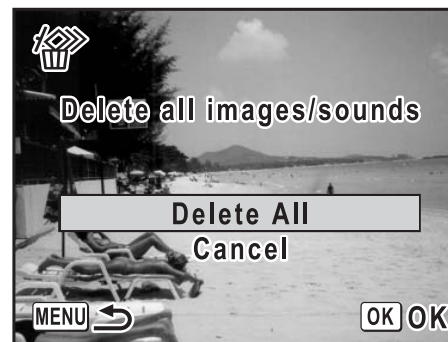

2 Use the four-way controller (▴▾) to select [Delete All].

3 Press the OK button.

(Memo)

● You can protect stored images from being accidentally deleted.
● You can recover images that were taken with this camera and then deleted. For details, refer to the Operating Manual (p. 132).

For details of how to use the Optio Z10, instructions on connecting the camera to a computer, refer to the manuals below.
